

CAPITA SYMONDS

VENTURE Event Medical Management

I have been working with Carol and Dennis for over 10 years, and as Director of Leisure Safety at Capita Symonds, I am delighted to wholeheartedly recommend their company, VENTURE Event Medical Management.

I am impressed by their honest, friendly, approachable manner and seen a consistent, safe, reliable service provided.

With a committed and professional team VENTURE are passionate about high quality healthcare provision. This is clear in their meticulous planning and execution of events.

Their risk assessments are thorough, realistic, and written with vast experience gained in event medical management. These are one of the many keys to their success. I have praised the company's risk assessments repeatedly, and know they are based on real 'hands on' knowledge from many successful years in the business.

I share VENTURE's core values of providing a safe, quality, and reliable service and their constant aim for improvement. This, together with a progressive approach to education and training, ensures the provision of an innovative, but common sense approach in providing the full spectrum of event medical management services.
