

## **Carol Taylor - Partner**

Carol worked for the Yorkshire Ambulance Service, Private Ambulance department for over 12 years, formerly West Yorkshire Metropolitan Ambulance Service, as Private Ambulance Supervisor/Office Manager before leaving to focus on a new career path as Healthcare Assistant at a local hospital. Missing the environment she was used to, in December 2007 Venture Event Medical Management was formed.

During her 12 years working for the Private Ambulance department, her role was to manage and support the department's staff including the private ambulance co-ordinators and ambulance crews. Another main part of Carol's role was to organise the air repatriation of holiday makers who suffered injury or illness abroad bringing them back to their home country. As well as managing contracts for BUPA and Nuffield Hospitals Carol was involved in the planning and management of medical resources at many events within the Yorkshire area and also for the past 11 years being a part of the management team for the major V Festival, Weston Park, Staffordshire.

Gaining many qualifications including Major Incident Medical Management & Support (MIMMS) and Emergency Medical Dispatcher, Carol has extensive experience in management and business administration and has many qualifications to support these. Her attention to detail in the producing of medical plans and event documents is second to none and proves invaluable when we are on site at events.
