### **Re: VENTURE EVENT MEDICAL MANAGEMENT**

#### **To Whom It May Concern:**

Dennis Holmes and Carol Taylor have been involved in providing medical facilities for the V Festival since 1997.

When they began Venture Event Medical Management in 2008 I had no hesitation in employing their services for last year's V Festival at Weston Park which has an audience capacity of 85,000 of which 75,000 camp on site. This requires a huge amount of medical planning and resources which VEMM provided with their usual reliability and professionalism.

In June 2008 they also provided all medical services for the Kaiser Chiefs hometown show in Elland Road Stadium which was the first show in that venue for 10 years. Again their service was second to none.

I intend to carry on using VEMM for the V Festival and other outdoor events and would highly recommend their services to any potential event organiser.

Best regards,

**Andy Redhead**

V Festival Organiser / Head of Production (SJM Concerts)
